The Quality Value for Money Standard

Ask your vendors the right quality focussed questions when comparing quotes.

To ensure a premium differentiator: all Syzygy photo prints **include magnetic stickers** and are presented in complementary protective, transparent packaging as a standard, not an upgrade.

All our photo booths are **self help touch screen systems** for an interactive engaging experience.

No stranger sitting across from you clicking the camera to capture the photo.

Large, professional **fast printing photo printers** are used – **Mitsubishi sublimation dye printers**.

We do not use small, slow, cheap, or low quality printers such as canon selphy printers.

Canon Selphy Printer

Prints in 1 min / need to manually cut/ lower quality/ limited prints per refill

Mitsubishi Sumblimation Printer

Prints in 15 seconds / Cuts Automatically/ High quality/ Bulk printing

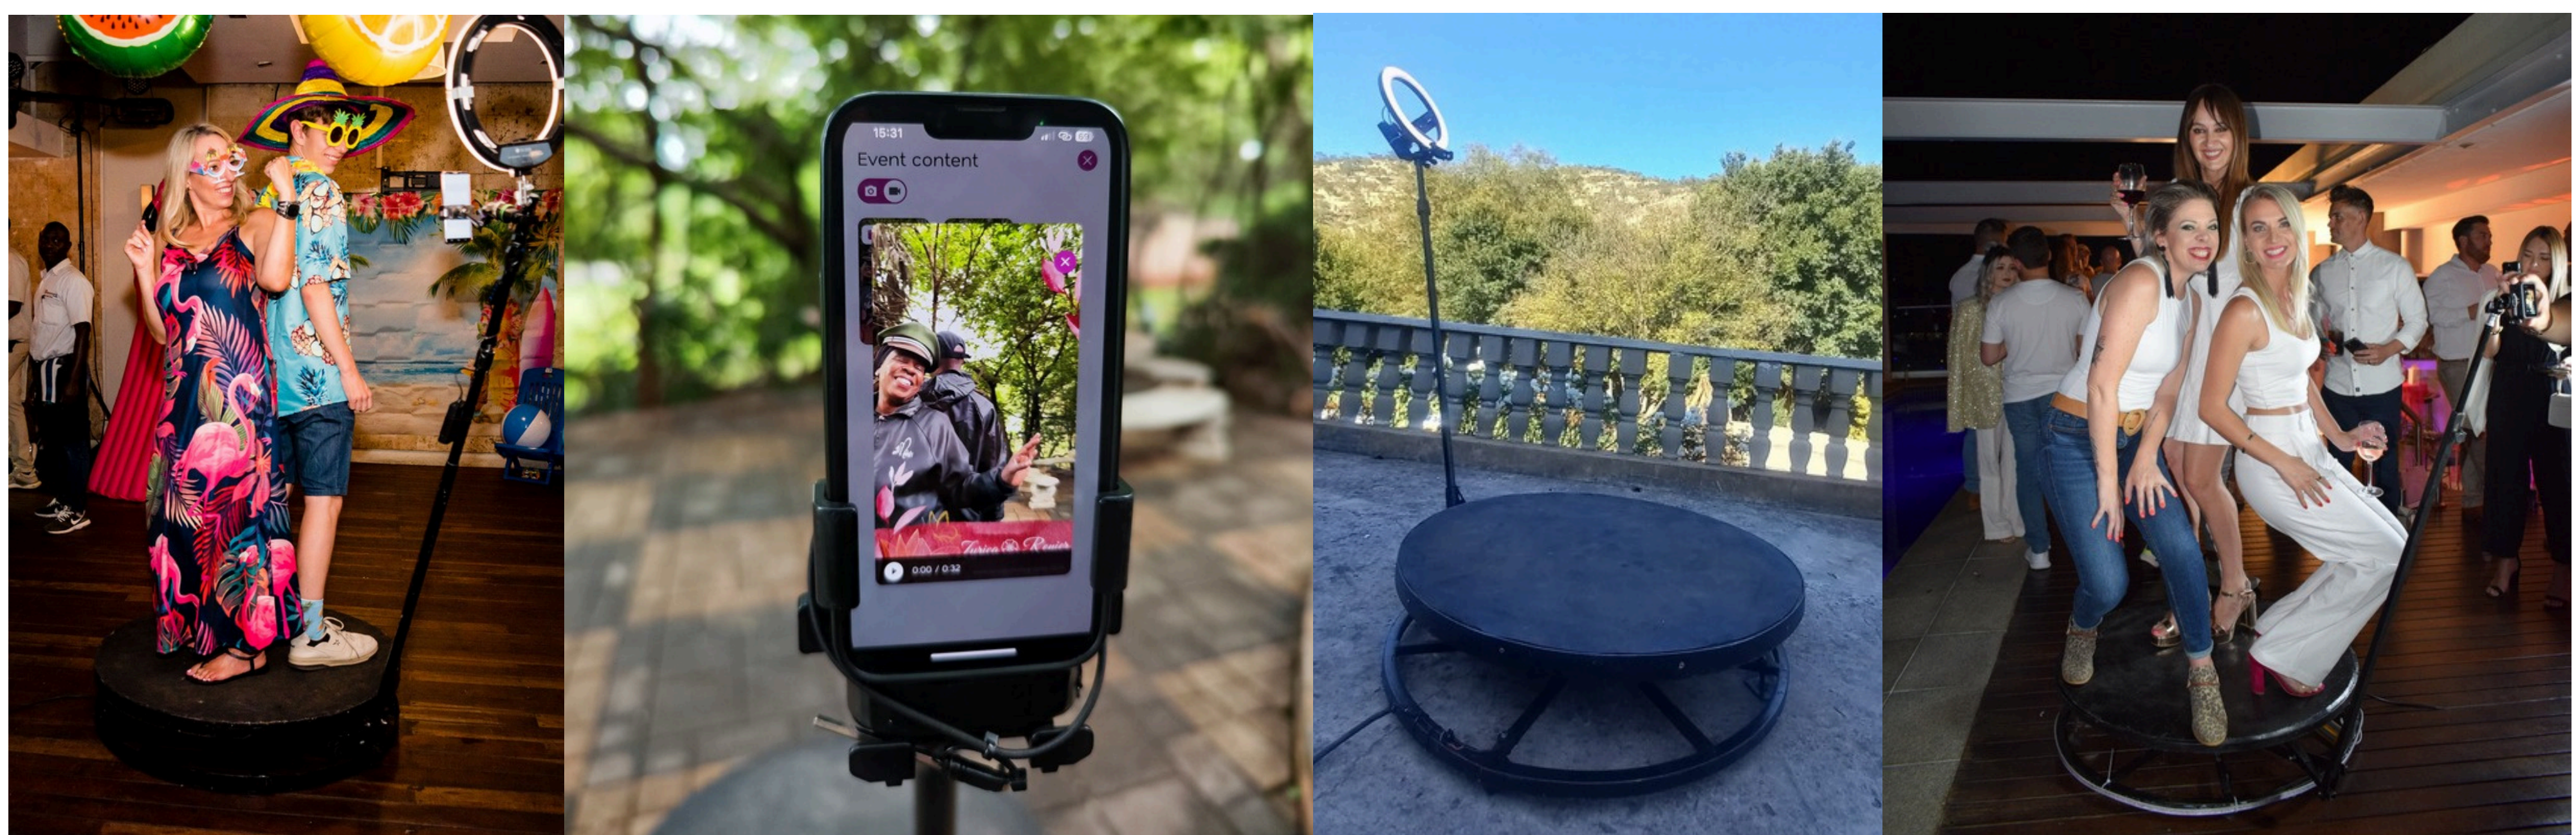

Our software, camera & printing equipment are **professional high-end technology** for quality, accuracy, speed and large scale activations.

Luminous storytelling that turns fleeting seconds into lasting legacies.

Exclusive Syzygy Luxury Perk:

Every Photo Booth activation booking includes a Complimentary Black 360 Video Booth (FREE) for the duration of the engagement, In exchange for a fair review left on social media/ google after their experience with Syzygy.

The Magazine Booth

The Magazine Booth / Vogue Booth is meticulously designed to place your guests within a high-end, life-sized magazine cover. This installation serves as both a high-impact branding tool and a sophisticated entertainment decor centerpiece for gala dinners and brand launches.

Engagement Options:

Option A: The Full-Day Residency

R8,000 per 8-hour max activation.

This tier includes custom-curated branding stickers to seamlessly integrate your corporate identity into the booth's aesthetic.

Extended setup and delivery requests will have additional costs (such as setting up- the day before and packing up the day after)

Option B: The Professional Editorial Add-on

Enhance the experience with a dedicated Professional Photographer to capture high-fashion shots at R1,500 per hour on top of the option A costs.

Option C: The Instant Print Hybrid

Fusing digital impact with physical keepsakes. Standard Photobooth pricing applies in addition to the R8,000 base residency fee.

You can also opt for a photographer to take the photos to be printed, instead of an electronic photobooth for a more custom/ personalized touch.

Option D: A Magazine Booth Alternative

Some venues' facilities might not allow for the set up of such a big structure. Syzygy can then provide a Custom all white backdrop and use an Overlay frame on the photo print design to make the final printed photo look like a magazine booth, without the physical structure. Pricing for this will be that of a normal Photobooth booking.

*Note: The dimensions of the Magazine booth when fully erected with panels are as follows:

Height - 2.4m; Length - 1.8m; Width - 1.56m

For the custom vinyl design dimensions (if you are performing the designs yourself): 1560 mm x 2160mm (leave the middle space open, of 800mm by 500mm, measure the square from 1.2m high from the ground - to ensure guests' faces are not covered by Vinyl wording).
